**TREESWEET GRAPEFRUIT JUICE**

JUST PUNCH AND POUR

**Uncle Frank discovers oil**  
... can keep a motor young

Clitcher rims may have barked Uncle Frank's shins, but they didn't bite his bankroll like old-fashioned oil. Just as it does now, uncompounded oil crept from hot cylinder walls, exposed them to rust. Now, compounded RPM Motor Oil clings to hot spots, cuts wear 'way down.

Wrestling with a one-man top may have ruined Uncle Frank's disposition, but it was rust inside the engine that aged his Haynes before its time. Today, Uncle Frank thanks his stars that "RPM" is compounded to rust-proof engines and stop the rusting that causes 80% of motor wear.

You'll discover "RPM" makes a whole of a difference in keeping your car out of trouble, too. With RPM Motor Oil's added compounds to stop motor troubles that just plain oil can't prevent, you'll say goodbye to sludge, carbon and hotspot wear, to rust, corrosion and foaming. Take a tip from Uncle Frank, get premium-quality protection with RPM Motor Oil.

"RPM" keeps cars young
